

VAT in Property & Construction

A Surveyor's Handbook is a practical guide assisting surveyors identify opportunities for valuable VAT savings whilst avoiding potential pitfalls at the same time.

VAT on property and construction is a complex topic area, which is constantly changing. This book is written in a clear and concise manner to provide an up to date one stop reference to the current interpretation of the relevant VAT legislation.

In addition to the main text there is a comprehensive reference section which includes extracts from the UK and European VAT legislation, useful forms and recent briefing notes from HM Revenue & Customs.

'This book is an immensely practical and straightforward guide through the latest VAT rules relevant to construction and property transactions. Essential reading for any surveyor'
Paul Taplin, Partner, EC Harris

About the Authors
